The Country of Football Paulo Fontes,Paulo Roberto Ribeiro Fontes,Bernardo Borges Buarque de Hollanda,2014 Brazil has done much to shape football/soccer, but how has soccer shaped Brazil? Despite the political and social importance of the beautiful game to the country, the subject has hitherto received little attention. This book presents groundbreaking work by historians and researchers from Brazil, the United States, Britain and France, who examine the political significance, in the broadest sense, of the sport in which Brazil has long been a world leader. The authors consider questions such as the relationship between soccer, the workplace and working class culture; the formation of Brazilian national identity; race relations; political and social movements; and the impact of the sport on social mobility. Contributions to the book range in time from the late nineteenth century, when the British first introduced the sport to Brazil, to the present day, as the 'country of soccer' prepares itself to host the 2014 World Cup, painting a vivid picture of the many ways in which soccer exists and functions in Brazil, both on and off the pitch.

Empire in Transition Alfred Hower,2018-02-20 The books in the Florida and the Caribbean Open Books Series demonstrate the University Press of Florida's long history of publishing Latin American and Caribbean studies titles that connect in and through Florida, highlighting the connections between the Sunshine State and its neighboring islands. Books in this series show how early explorers found and settled Florida and the Caribbean. They tell the tales of early pioneers, both foreign and domestic. They examine topics critical to the area such as travel, migration, economic opportunity, and tourism. They look at the growth of Florida and the Caribbean and the attendant pressures on the environment, culture, urban development, and the movement of peoples, both forced and voluntary. The Florida and the Caribbean Open Books Series gathers the rich data available in these architectural, archaeological, cultural, and historical works, as well as the travelogues and naturalists' sketches of the area in prior to the twentieth century, making it accessible for scholars and the general public alike. The Florida and the Caribbean Open Books Series is made possible through a grant from the National Endowment for the Humanities and the Andrew W. Mellon Foundation, under the Humanities Open Books program.

This handbook will be both a

traveling guide and essential touchstone for anyone fascinated by this dynamic and expanding discipline.

Sapiens Yuval Noah Harari, 2015-02-10 New York Times Readers' Pick: Top 100 Books of the 21st Century New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

The are followed by eleven chapters on individual countries from the European Union. Re-issued in 2005 in electronic format by ATLAS, the Association for Tourism and Leisure Education.
